THANKS

To all who entered, especially the 80 who rode and tolerated some surprise weather at the Monmouth end of the course.

Although the westerly wind wasn't a particularly helpful direction, times were a minute or two faster than last year (on R25/7a) and 20 competitors improved their LTS in this event.

While conditions remained dry around Usk, those marshalling at Monmouth were treated to a deluge and the spectacle of competitors negotiating the roundabout at top speed with no effective brakes. Apparently this was the case even for those who, like the winner, use aluminium rims. Fortunately traffic was very light at the time.

There were 32 DNS's and 1 DNF out of the 112 total.

A particular thank you to Brer William, bringing a commissaire and two CSAS static marshals from the Saturday morning stage of Ras De Cymru, we were therefore able to provide adequate marshalling in accordance with the RA..

THANKS ESPECIALLY:-
