

 EQUINE LEARNING COMMUNITY INTEREST COMPANY Risk Assessment	Event or Activity	Prevention of infection from Coronavirus	Date	20 th May 2020
	Location	Equine Learning CIC	OS Map Grid Reference	N/A

	Hazard (What is the injury and how can the injury occur)	Risk controls already in place (What is currently being done to prevent the injury occurring)	People involved or exposed	Further Action Required (What more needs to be done, who is responsible and when)
1	Infection from virus transferred by failure in social distancing.	<ul style="list-style-type: none"> ◆ A briefing must take place to remind participants of the correct controls and actions to take. ◆ Coaches and appointed persons must ensure the 2 metre separation rule is enforced as much as possible, with support from parents, helpers and other responsible persons present. ◆ Participants or other visitors / parents who repeatedly or wilfully fail to comply will be asked to leave the premises. ◆ As activities will be outdoors masks are not considered necessary. ◆ Where necessary or helpful consider putting markings on the floor to ensure social distancing can be observed and enforced. ◆ Use the briefing, signs and notices to remind participants to wash or sanitise their hands regularly and to avoid touching their face. 	<ul style="list-style-type: none"> ◆ Participants ◆ Coaches & Employees ◆ Parents 	<i>Equine Learning must check that all of the risk controls are in place, through team training and appropriate communication with participants, parents and any other relevant people and organisations.</i>
2	Infection from virus transferred by contact between people at initial arrival and signing in/payment/greeting	<ul style="list-style-type: none"> ◆ Payment and registration for event or activity to be remote or online. ◆ No hand shaking or hugging when greeting. ◆ Unnecessary people to be restricted from watching or being close to the event or activity. ◆ Surfaces such as gate locks, handles or commonly touched surfaces should be cleaned regularly with household disinfectants. ◆ Briefing and reminder notices to encourage regular hand washing / sanitising and social distancing. ◆ Put markings on the floor to ensure social distancing can be observed and enforced where necessary. ◆ Plan for staggered arrival and departure times for participants to reduce congestion and numbers of people present. ◆ All people must wash their hands or use hand sanitizer immediately as they arrive and leave. 	<ul style="list-style-type: none"> ◆ Participants ◆ Coaches & Employees ◆ Parents 	<i>Equine Learning must check that all of the risk controls are in place, through team training and appropriate communication with participants, parents and any other relevant people and organisations.</i>

3	Infection from virus transferred by contact between people in Toilets /Hand wash areas.	<ul style="list-style-type: none"> ◆ Toilets are only to be used if absolutely necessary and must be cleaned by the user after each use – as detailed in the signage. ◆ Signs and notices in place to remind users to wash hands regularly and avoid touching their face. ◆ Put markings on the floor to ensure social distancing can be observed and enforced. ◆ Area to be cleaned regularly following cleaning guidelines. ◆ Individual toilets decrease risk of an overcrowded area. 	<ul style="list-style-type: none"> ◆ Participants ◆ Coaches & Employees ◆ Parents 	<p><i>Equine Learning must check that all of the risk controls are in place, through team training and appropriate communication with participants, parents and any other relevant people and organisations..</i></p>
4	Infection from virus transferred by contact between people when administering first aid.	<ul style="list-style-type: none"> ◆ Normal first aid hygiene and contamination control practices should be followed. ◆ Where it is not possible to maintain a 2 metre or more distance away from an individual, disposable gloves are recommended. Disposable gloves should be worn if physical contact is likely to be made with potentially contaminated areas or items. ◆ A mask must be worn of there is a risk of contact from droplets being coughed from an individual being treated. ◆ Clean your hands thoroughly with soap and water or alcohol sanitiser before putting on and after taking off PPE. ◆ It is recommended to avoid mouth to mouth breaths to a non-breathing adult casualty, only administer chest compressions. ◆ In a child, chest compressions alone are unlikely to be successful, hence mouth to mouth breathing may be required and a face shield should be worn if available. ◆ Good hygiene should be followed when administering first aid. ◆ Updated first aid guidelines to be followed when providing resuscitation to a casualty. ◆ Should you have given mouth-to-mouth ventilation there are no additional actions to be taken other than to monitor yourself for symptoms of possible COVID-19 over the following 14 days. <p><i>(It should be noted that Coronavirus is a mild disease in most people, but a casualty who is not breathing or their heart has stopped is definitely going to die, hence the risk should be balanced. This is at the discretion of individuals administering first aid)</i></p>	<ul style="list-style-type: none"> ◆ Participants ◆ Coaches & Employees ◆ Parents ◆ First Aiders 	<p><i>Equine Learning must check that all of the risk controls are in place, through team training and appropriate communication with participants, parents and any other relevant people and organisations.</i></p>
5	Infection from virus transferred by contact between people in kitchens/ /social areas.	<ul style="list-style-type: none"> ◆ All activities should take place outside with indoor areas closed off. ◆ Social distancing should be maintained by employees and students inside the barn during education programme learning. 	<ul style="list-style-type: none"> ◆ Participants ◆ Coaches & Employees ◆ Parents 	<p><i>Equine Learning must check that all of the risk controls are in place, through team training and appropriate communication with participants, parents and any other relevant people and organisations.</i></p>
6	Infection from virus transferred by contact between people during coaching or riding activity.	<ul style="list-style-type: none"> ◆ People to be spread out at least two metres apart. ◆ Activities must be held outdoors. ◆ The numbers of attendees during activities must be kept to a minimum where social distancing can take place effectively. ◆ Put markings on the floor in areas where congestion or queues may form to ensure social distancing can be observed and enforced. ◆ Use signs and notices to remind users to wash or sanitise hands regularly and avoid touching their face. ◆ Use the minimum amount of shared equipment and clean equipment after each use. Participants to use their own riding hat. ◆ No hand shaking or hugging when greeting. 	<ul style="list-style-type: none"> ◆ Participants ◆ Coaches & Employees ◆ Parents 	<p><i>Equine Learning must check that all of the risk controls are in place, through team training and appropriate communication with participants, parents and any other relevant people and organisations.</i></p>

7	Infection from virus transferred by contact between people during transfer or materials or objects.	<ul style="list-style-type: none"> ♦ Use the minimum number of shared items All registration forms and payments to be conducted online ♦ Only one person to move or assemble jumps and move poles. ♦ Use signs and notices to remind people to wash /sanitise hands regularly and avoid touching their face. ♦ Use disposable gloves for cleaning down equipment. 	<ul style="list-style-type: none"> ♦ Participants ♦ Coaches & Employees ♦ Parents 	<i>Equine Learning must check that all of the risk controls are in place, through team training and appropriate communication with participants, parents and any other relevant people and organisations.</i>
8	Infection from virus transferred by contact between people during travel.	<ul style="list-style-type: none"> ♦ Travelling should be undertaken with people from the same household. ♦ Travel should remain as local as possible. 	<ul style="list-style-type: none"> ♦ Participants ♦ Coaches & Employees ♦ Parents 	<i>Equine Learning must check that all of the risk controls are in place, through team training and appropriate communication with participants, parents and any other relevant people and organisations.</i>
