

Use this template to create 2" finished (2½" cut) half-square triangles (HSTs) - you will get twelve HSTs from this sheet. See my tutorial at sewmotion.com on this speedy method of creating this very versatile block.

To check your scale is correct, this box should measure 1" square. If it does not, make sure you are printing at 100% and that the "fit to page" option is not ticked.

1" x 1"
