

4.2 Environmental Policy

MVT recognises that good management includes all environmental matters and will ensure that environmental protection and the prevention of pollution are part of all decisions, policies and practices. The Company shall endeavour to work towards the following objectives:

- Comply with relevant environmental legislation and regulation.
- Provide for the publication of the Environmental Policy internally, by posting the document in the Company and externally to all interested parties, on request.
- Provide for the setting and achievement of environmental objectives and targets for the Company, and secondly for the publication of the environmental objectives and targets by the posting of the document in the Company.
- Maintain efforts to achieve continual improvement in the environmental performance of the Company, the starting point is to comply fully with the requirements of ISO14001:2004.
- Ensuring that operations at the MVT site are carried out with full control on all aspects which may have an environmental impact e.g. fuel storage, vehicle maintenance, waste generation and energy use.
- Foster openness, dialogue and discussion with employees, customers, suppliers, contractors and all interested parties regarding the environmental performance and the environmental objectives and targets of the Company.
- Measure environmental performance by conducting regular environmental audits and assessments of compliance with the Environmental Policy, relevant environmental legislation and the requirements of the Company.

A handwritten signature in black ink, appearing to be 'D. H.', is written above a horizontal line.
