Description

Eco-Mix is a concentrated liquid additive for sand and cement mortars. When mixed at the correct ratio to water it performs as a mortar plasticiser.
Eco-Mix can be used in all situations where improved workability is required such as screeds, renders, pointing. It is used extensively in sand and cement screeds after a dpc installation to provide a stronger, longer lasting bond

Advantages

- Superior Plasticsing Acton
- Simple Controlled Dosage & Mix Design, Time After Time.
- Consistent Mix Design
- Easy to Use
- No Waste
- Takes up Less Space and Less Weight Than Standard Available Products
- 1ltr is Equivalent to 25ltr Standard Product

Application

Add Eco-Mix to the gauging water at a rate of 25ml to 50ml oer 25kg of cement and stir to disperse.
Add to the empty mixer then add sand and cement. Always ensure that minimal gauging water is used so that the water can be added at the end of mixing to achieve the required consistency.

Do not use below 2°C

Health & Safety

Eco-Mix is safe in normal use, but could be irritating to eyes and skin, so it is advisable to wear protective clothing, gloves and goggles. If the product is swallowed seek medical attention.
In case of eye contact wash eye thoroughly with water and seek medical attention if irritation persists.

Storage and Packaging

Eco-Proof is supplied in 250ml and 1litre bottles
Store in cool conditions away from frost, heat and direct sunlight.
