

Free paper bunting templates

Instructions:

Photocopy the template as many times as required, cut out your chosen shape (triangle or heart) and decorate! You could paint your bunting or glue on sequins/glitter/coloured paper for a really sparkly cheery Christmas decoration!

Turn over your pieces, run some paper glue along in a line close to the top, stick on some coloured string or ribbon, and hang in position!

Tip:
If you want to use the heart shape, turn your piece over once you have cut it out and decorate the blank side!
