Teddy bear design

Print off this page and trace onto your fabric with a waterproof or erasable transfer pen or use the prick and pounce method. Go over the design with a black pen first if you can't see it clearly through the fabric. Frame the fabric into your embroidery hoop placing a backing fabric behind your embroidery fabric to give you a more stable ground to work on.

Outline design for transfer

Inspiration

This cute but simple design is great for beginners to practice your stitches on or why not try it in a more advanced technique? Try goldwork or use it as I have in my Teddy Bear video to practice needle lace patterns!

Check out our videos on how to frame up your fabric, how to thread your needles and how to start and finish your threads; just search **Sarah Homfray Embroidery** on YouTube to find our channel and click on the red **SUBSCRIBE** button to bookmark our page.

Sarah is happy for you to use this design for your own personal use but not for any commercial use please without Sarah's permission (e.g. selling it on, teaching, selling the finished embroidery etc.)
