B♭ Sax

This simple (yet funky) tune allows you to concentrate on the counting aspect as we are only using notes A and G. Use the tongue to start each note (imagine you are saying "daah"); practice saying or singing to the track before you try playing it. Remember that the two minim (empty) notes are tied, so should sound as a continuous sound. Don't play in the rests! One Hit has a 4 Click intro.

Jam Notes

* E♭ is a 'flavour' note; only use it occasionally
