Optional Extras

1. Replacement OSB3 wall boards.
2. Insulation to sleeping kennel with easy wipe clean galvanised sheet wall cladding.
3. Door panel upgrade to included revolving feed & water bowel- no need to enter run to change water or feed. Available in both 1.5m & 2.0m panels complete with a double bowl. Each bowl is made from stainless steel & can hold approx. 3 litres of water.

4. Upgrade timber sliding pop-hole to full metal galvanized pop-hole- advisable if your dog likes to chew the kennel framework around the pop-hole. Operated from outside the kennel by a pulley system.
