## ABOUT US

Exmouth Civil is a privately owned and highly experienced civil contracting and earthworks business located in Exmouth, Western Australia. Originally established by Brad and Helen Spiers as Spiers Earthworks in 1984 to provide safe, sustainable and smart solutions for superior civil construction, bulk earthworks, roadworks, plant hire and quarry services. In 2011 their son Jasper Spiers took over as General Manager and now is trading as Exmouth Civil Pty Ltd. Jasper continues to drive the company using a collective approach to project delivery utilising the diversity of skills and experience available from his personnel.

Our business offers a highly skilled operational work force, along with modern, reliable plant and equipment and technical services capabilities ensuring we can deliver projects to the highest possible standards, within budget and in accordance with provided requirements. We run a regular crew of around 30 staff providing our services all throughout the Gascoyne Region including Exmouth, Carnarvon, Onslow and Coral Bay. Our office and workshop facilities are strategically positioned in the LIA (Light Industrial Area) in Exmouth itself, permitting us to service the region quickly and efficiently by cutting down on mobilisation and demobilisation time.

Major clients current and previous have included, Main Roads, Georgiou, RAAF, Defence, RAC, DBCA and many more. These works have been completed around Exmouth and surrounds and as remote as Middalya Station. A full list of completed projects can be sent through upon request.

## OUR SERVICES

### EARTHWORKS

We provide comprehensive earthwork services for commercial and private clients. This includes excavation and removal, site clearance, backfill materials, water cartage and construction and civil engineering services.

### ROADWORKS

We offer roadwork repairs services, highway, footpath and carriageway excavations, provision of sand, gravel, and limestone materials.

### CIVIL WORK

As part of our civil engineering services, we offer enabling works, block clearance, house pads, car parks, site clearance, subdivisions, air strips, structure preparation.

### PLANT HIRE

We offer both wet and dry hire of various plant and machinery for all your project requirements. When it comes to plant & equipment Exmouth Civil have a vast catalogue of over 100 including 4 Graders, 13 Excavators (1 – 52 tonne), 10 Loaders, 5 Water Carts (6-wheel, 8-wheel and semi) and 7 Rollers (steel drum, multi & padfoot).

### QUARRY

Exmouth Civil's quarry has a stockpile more than capable of fulfilling the requirements for almost any size project. Everything from sand to large limestone aggregate are regularly produced on our tenement to meet current contract requirements.

### CONCRETE

In 2019 Exmouth Civil acquired a concrete Batching Plant with two cement silos. We have since expanded to being able to produce over 90 mix designs from standard, to decorative, to exposed mixes and everything in between.

For a quote, query or information on any of our services, please contact Exmouth Civil on 08 9949 2000, 0418 935 224 or admin@exmouthcivil.au
