## *A Flame Trust Appeal for Playground Construction in Comanesti, Romania*

*Help us to construct a recreational and sympathetic environment at a  
Kindergarten in Comanesti, near Bacau, to serve the needs of children in  
a local community.*

**It was in 2020 that Flame Trust built a playground for children with physical and mental disabilities at a home in Sighet, Maramures in Romania.**

Successfully directed and delivered by Calin Rezmunes, Flame's 'Practical Assistant' and also from Romania, a new playground was constructed - on budget, and to a very high standard (*see right, and further pictures on the back page*). It received National acclaim, and was featured on TV.

**Consequently, other opportunities and invitations have been explored and after a careful feasibility process, Flame is excited to announce that work will commence on a second playground in 2022.**

The project will again be directed by Calin, but will be also in partnership with 'Crai Nou' public kindergarten and Habitat for Humanity, where Flame has established strong links.

The Kindergarten has 128 children – many with learning difficulties and from

challenged backgrounds - in a very poor neighbourhood of COMANESTI – a small town near to BACAU. The school has systematically been excluded from investment by the local municipality over many years.

The building itself is very old and although it used to enjoy a playground facility, this was dismantled so as not to cause an accident for the children.

**Construction will begin in the second half of 2022 and the cost is likely to be approximately £15,000.** There is a large plot of land that will be used for this purpose (*as pictured on the front and back covers of this brochure*), and the recreational facilities will feature swings and other suitable equipment, rest areas and spaces for external therapy.

**Please consider whether this is something that you and/or your fellowship could support. Full detail is attached on the response form.**
