---

Dear friends from Flame Trust,

Please accept the deepest thanks from me personally and from the ValeaSeaca community, a community of which I proudly belong!

Through the gesture you made, you produced immense joy in the souls of dozens of children from the community, peace and happiness for their parents and deep respect for all of us!

We know that the good done must be returned and, therefore, we will try to follow your example, to become better and to support those in need!

We also thank Calin, it was a pleasure to meet him and we hope he felt good with us during the construction of the playground!

We and the generations to come, these children who now laugh and enjoy in the space financed by you and which is only theirs, we thank you and wish you to have many joys, to be healthy and to always stay good!

You are the light that some, with weaker vision, need in the harder, darker periods!

Good bless you and your families,

With respect,

08.11.2023
