b gchess™

Important things to know when you are considering a Giant Chess Set:

b gchess ™	Some other large chess pieces
Are designed and manufactured in South Africa by South Africans.	Designed and manufactured in a large Asian country who don't like the Dalai Lama.
Has a 4 mm wall thickness for toughness.	Has a wall thickness of 2mm or less.
Manufactured using industrial grade plastic made by Sasol.	?
Plastic has industrial specifications (on our website) and is UV stabilized for long term use in South African conditions.	?
Our set weighs 52kg without packaging.	Packaged weight is 30kg – must mean less of something?
We can replace individual pieces fairly quickly should you have the misfortune to lose a piece.	?
We almost always have sets in stock.	These travel some distance and are sometimes difficult to buy in a hurry.
We can make coloured sets to make your set unique !	Only black and white available.
Tastefully designed by South Africans in the Staunton style without knobby heads.	Hmmm.....
King height is 820 mm.	King height is 650 mm.
Permanent corporate branding can be applied.	They come as they come.....
Single moulded pieces for maximum strength and good looks.	Made by screwing different top parts into a common base piece.
