

Cut away technique

Cut away technique

Cutting away the inside of a sticker creates an elegant ornamental pattern, corners and borders. All you have to do is stick the sticker, and cut out parts of the inside. Using this technique you can stick several pieces of coloured paper behind each sticker. Cut several sections from a piece and stick this onto a piece of coloured paper. You can repeat this as often as you want and the result is guaranteed to be spectacular!

Method:

1. Stick the sticker onto a piece of paper.
2. Cut out the sticker.
3. Cut out some inner sections.
4. Stick the sticker onto a different coloured piece of paper.
5. Cut out the sticker again. (You can repeat this process as often as you like)

Tips

Patterns

Use patterned paper to make the cut-outs more eye-catching.
