

Local Villages Weekend at Amberley Museum

23rd & 24th May 2015

The club (WSWT) decided it would be advantageous to use this new event to 'Showcase' the work that members produced.

10 turners kept 6 lathes busy all weekend, each was keen to show their methods, whilst others just wanted to watch them, the outcome was the same, everyone arrived at their destination producing individual masterpieces.

There was a wide and varied selection of turnings on display, from 600mm diameter bowls to a bunch of grapes, platters to pill pots, and everything in between.

The varied and positive comments received from the public made everyone proud to be part of this event, it certainly did what the club wanted it to,--- broaden our audience---

These pictures show the diversity of items on display-
