

## Crystal Bracelet

### What You Will Need

- 15 x Chinese crystal rondelles in three different colours
- 3 x 30cm lengths of Tiger Tail
- 1 x lobster clasp
- 2 x jump rings
- Crimp beads

In addition you will require cutter pliers, a pair of flat nosed pliers and a pair of round nose pliers.

Fig 1.

Fig 2.

Fig 3.

Fig 4.

1. Crimp your three strands of wire onto a jump ring (Fig 1). To do this thread the crimp bead onto the three strands of wire, then add the jump ring and bend the wires back through the crimp bead and squish it closed using your flat nose pliers. Trim off the excess wire.
2. Next thread the clear AB crystal onto two of the wires, use an outer wire and the middle wire (Fig 2).
3. Next thread a pink crystal onto 2 wires. This time use the middle wire again and the other outer wire (that has not yet been used) (Fig 3).
4. Thread a lilac blue crystal onto the first two wires used (Fig 4)
5. Carry the pattern on using the coloured crystals in the same order. Remember each time you thread a crystal bead on you are always using the centre wire and then alternating with the two outer wires (Fig 5).
6. When you have the desired length of your bracelet open another jump ring and add a lobster clasp before closing the jump ring (Fig 6). Attach this to the end of the wires in the same way as you started (Fig 7).
