

Steampunk Style Bracelet

What You Will Need

1 x bracelet finding OR chain and toggle clasp to make your own

Brass headpins

3 x steampunk style charms

Selection of beads – we have used 10mm and 4mm Czech glass fire polished beads, metal fluted beads, 4mm pearls and porcelain beads

In addition you will require cutter pliers, a pair of flat nosed pliers and a pair of round nose pliers.

Fig 3.

Fig 4.

Fig 5.

1. Firstly plan your design out to decide which beads and charms you would like to use
2. Thread a bead onto a headpin and create a simple loop. To do this bend the headpin to a right angle as close to the bead as you can (Fig 1) and trim off the excess wire from each leaving approx 1cm on each (Fig 2). Create a simple loop the headpins and before closing link the loop onto a link on the chain (Fig 3)
3. To add a charm open a jump ring by using two sets of pliers to push one side away from you and the other towards you (Fig 4). Thread a charm on and close the jump ring onto a link on the bracelet (Fig 5).
4. Carry on adding beads and charms until you are happy with your design.
