

Steampunk Style Earrings

What You Will Need

1 x pair of brass fish hook earrings

10 x brass headpins

2 x steampunk style brass earring findings

Selection of beads – we have used 6mm and 4mm Czech glass fire polished beads

In addition you will require cutter pliers, a pair of flat nosed pliers and a pair of round nose pliers.

Fig 4.

Fig 5.

Fig 6.

1. Thread a smaller 4mm bead onto each of the headpins (Fig 1).
2. Bend each of the headpins to a right angle as close to the bead as you can (Fig 2) and trim off the excess wire from each leaving approx 1cm on each (Fig 3). Make sure you keep the excess bits of headpins as you will need them for the next stage.
3. Using your round nose pliers, create a simple loop on each of the headpins, and set to one side (Fig 4)
4. Now, using the excess wire that you trimmed off in Stage 2 use your round nose pliers to make a simple loop onto each of the headpins (Fig 5) and add a 6mm bead onto each
5. Make a simple loop on the other end of each headpin and then link the 4mm bead, and the 6mm onto the earring finding (Fig 6)
6. Add on the fish hooks onto the top loop of the earring finding to complete.
