

Designed for general use in a myriad of ventilation applications, in particular rooms and doors where privacy must be maintained. The slimline design is ideal for mounting flush on doors or partitions where other types of transfer grilles may protrude into the opening – useful when incorporating intumescent blocks within fire rated doors.

Flush mounting grilles have a blade arrangement designed to almost completely restrict the line of sight through the grille blades. This allows privacy to be maintained whilst still leaving enough free area to provide adequate ventilation.

Manufactured from extruded aluminium alloy sections. Frame 1.6mm thick. Blades 1.6mm thick on 15mm centres. Frames are held together using punched in steel corners.

Flush mounting grilles are very robust, yet light. The aluminium construction is desirable for applications such as bathrooms where repeated exposure to high humidity can be expected. Suitable for low or high level mounting requirements. Fixings are via countersunk screw holes in the flange.

Standard finish for this product is Mill Aluminium. Other finishes are available to suit the interior and architectural design requirements.

Options & Accessories

- Intumescent Air Transfer Block for use in fire doors or partitions
- Backing flange available for door mounting
- Fixing holes as standard, unless not required

Sizes Available / Dimensions						
CVE Product Code	Hole Size	Depth	Outside Flange	Flange Size	Blade Cts	Free Area
CVFMG-150	150mm x 150mm	15.5mm	210mm x 210mm	30mm	15	Approx. 45%
CVFMG-200	200mm x 200mm	15.5mm	260mm x 260mm	30mm	15	Approx. 45%
CVFMG-250	250mm x 250mm	15.5mm	310mm x 310mm	30mm	15	Approx. 45%
CVFMG-300	300mm x 300mm	15.5mm	360mm x 360mm	30mm	15	Approx. 45%
CVFMG-350	350mm x 350mm	15.5mm	410mm x 410mm	30mm	15	Approx. 45%
CVFMG-400	400mm x 400mm	15.5mm	460mm x 460mm	30mm	15	Approx. 45%
CVFMG-450	450mm x 450mm	15.5mm	510mm x 510mm	30mm	15	Approx. 45%
