### A Move for Tootsies Weydon Lane Nursery

Tootsies Weydon Lane nursery has moved to its new site at Tootsies Weydon Lane, Godalming. After 10 years of operating from its previous site, the nursery has moved to its new site at Weydon Lane, Godalming, on Friday 11th July. The nursery is moving to its new site at Weydon Lane on the new building the following Monday.

Aileen Brown, Director of Tootsies Nursery said "It has been a busy moving week. All families moved smoothly into the new building. I was excited and adding the nursery to the Weydon Lane area and we look forward to building our permanent presence in the new future". If you would like more information about Tootsies and access to our website visit our website: [www.tootsies.co.uk](http://www.tootsies.co.uk) or call 01483 415408 or use email: [info@tootsies.co.uk](mailto:info@tootsies.co.uk). ### Surrey Business Gets Gold!

Surrey County's Business Brand ranked in 5th place nationally. This Parents & Kids Best Award

Surrey's Skills & Training from 1 year have been named 'Best Drinking Cup or Toddler Bottle' in the highly regarded Lowdown Awards 2014. If you have a baby or young child you may not be aware that the most up to date information about baby cups, bottles, teat spouts or teats, should be used from directly to age 18 months.

Step up Sara Reid, the Head of the Surrey County Council and creator of Babying with Sara Reid. Sara's children were the inspiration for these cups, which, to save them a year away from the shops, are already available in your local baby store. The Surrey Business has been recognized by the Skills department at Progress's prestigious Skills award.

Sara Reid recently received a great compliment when it was given a Twitter boost by Theo Paphitis. The brand was entered by the Dragons' Den team as part of his weekly 'Small Business Sunday' initiative where he chooses an business to review with a quarter of a million followers.

Doctors and midwives have been using these Babying because it is the right size for little mouths and being an open top it supports good oral health and hand development. It can also be used for cup-feeding babies if any tricky times when breastfeeding is established.

The NHS Choices website suggests using an open cup from six months to allow babies to learn to sip as well as help their dental health. Babying Director and Founder Sara Reid says "It's the ultimate Open Cup in a bottle. Babying is a very simple way for parents to make a big contribution towards their children's good health and development."
