

Control taller growing resistant weeds

Weed Wiper kits for any sprayer boom

The only weed wiper in the world that can be mounted to any size boom

Front boom examples

Heavy Duty Sponges put more product onto the target weeds with no drift

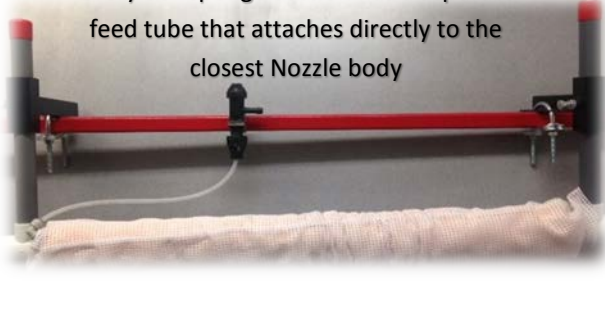

Back boom examples

Offset the sponges to accommodate varying boom sizes and this also allows you to easily remove a section when folding up your boom

Every 30" sponge section has a separate feed tube that attaches directly to the closest Nozzle body

Turn your pump on and off for only a few seconds to charge the sponges

Easily attaches to the boom with no welding.

Quickly convert from a wiper to a sprayer.
