

12<sup>th</sup> September 2013

To Whom it May Concern.

KUSCO are the property services provider for Kingston University. We used the services of Safety Limits to provide temporary cover in the Health and Safety Office during August 2013.

James undertook the responsibilities of the Health and Safety Permit to Work officer. This involved managing contractors, issuing work permits, carrying out safety inspections and assisting the management team with general health and safety.

James managed his time well and undertook these duties diligently. He developed good relationships with the contractors and project managers and was always able to assist with queries that arose. I have no hesitation in recommending James to assist with health and safety compliance, particularly within educational establishments.

If you require any further information please do not hesitate to contact us.

Yours Sincerely,

***Alison Patrick***
