

# How Many Teeth?

1. How many teeth do you have?

2. How many teeth have you given to the Tooth Fairy?

**Did you know** that children start to lose their baby teeth at around **six years old**?  
Children only have **20 baby teeth** but adults will have up to **32 teeth**.

3. Can you guess how many teeth a dog has?

A: 20

B: 42

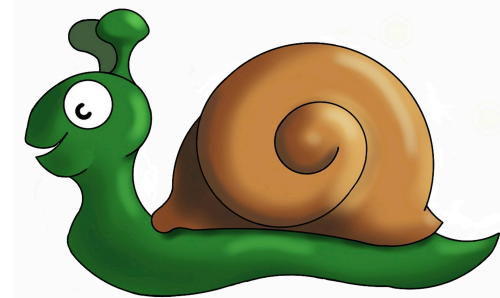

or C: 104

4. Here is a tiny snail and a big blue whale. One of these creatures has 25,000 teeth. The other has none. Can you guess which is which? Draw a line from the number of teeth to the right creature.

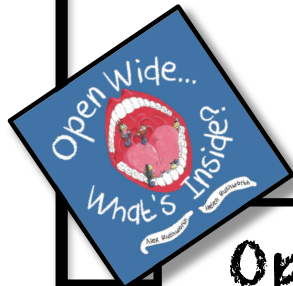

No teeth

25,000 teeth

Eat Less Sugar, Drink Less Pop.  
Brush twice a day  
and the rot will stop.

Open Wide, What's Inside?
