

# Vision version 2 - Windows

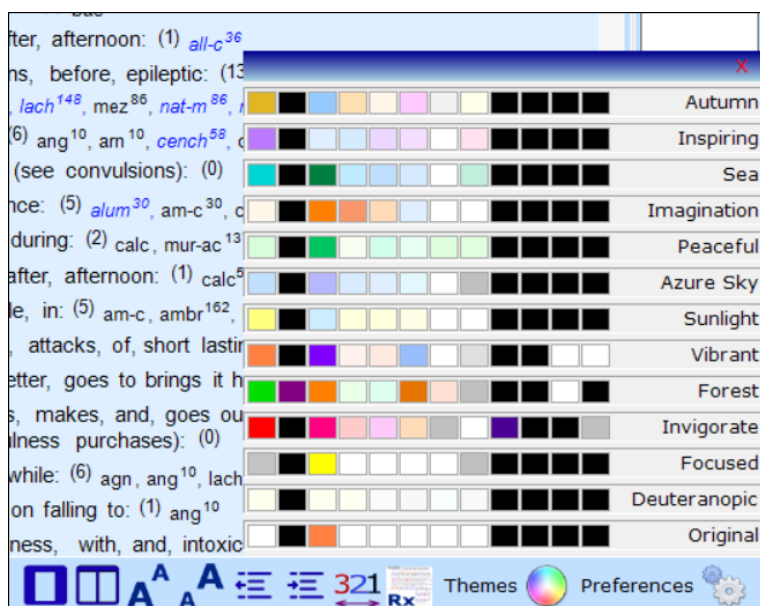

## Improvements Made

### Appearance

New, modern icons have been implemented on all toolbars. The Resource Tree on the left side of the screen has been made wider to improve readability:

**Display Themes** – with just one click you can now change the overall appearance of Vision (and you can still adjust individual settings to your taste)

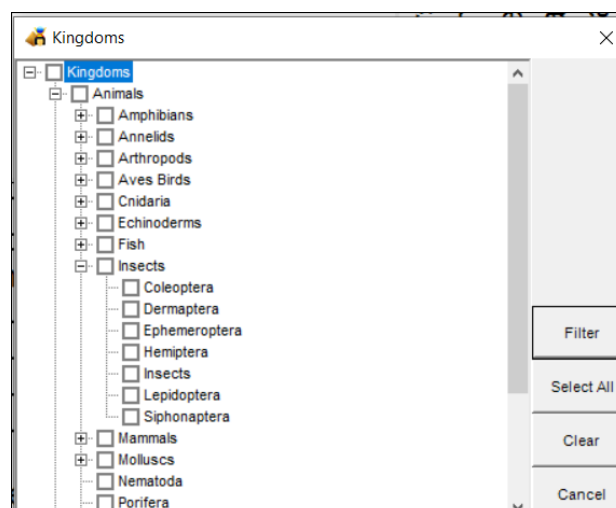

### General

Improvements have been made to many botanical and taxonomical remedy classifications so your repertorisations can be more refined.

APG4 has been used to classify plant names e.g. Eudicots, Magnoliids, Basal angiosperms etc etc.

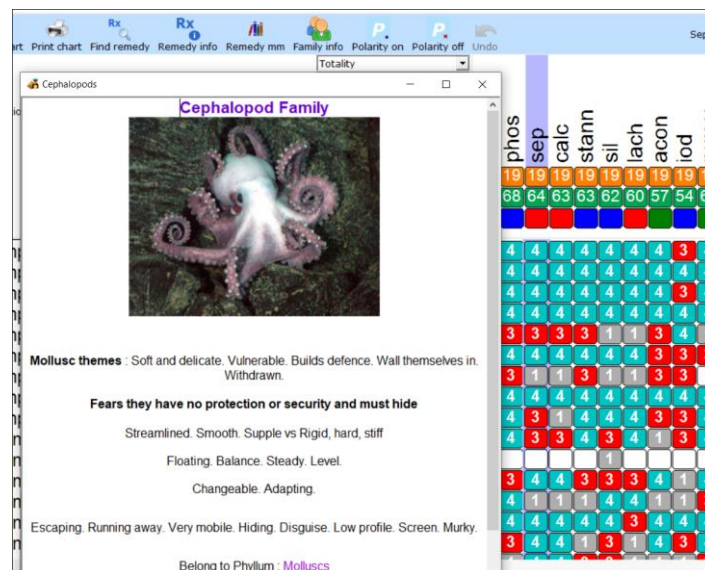

Animal remedy classification is more refined allowing you to be more accurate when repertorising.

More Families have been added into Vision for enhanced repertorisation filtering.

Families					
<input type="checkbox"/> Acetates	<input type="checkbox"/> Carnations, Pinks	<input type="checkbox"/> Foods	<input type="checkbox"/> Lindens	<input type="checkbox"/> Phosphors	<input type="checkbox"/> Trees

<input type="checkbox"/> Carbons (org)	<input type="checkbox"/> Fluorines		<input type="checkbox"/> Peppers	<input type="checkbox"/> Toxic Chemicals	

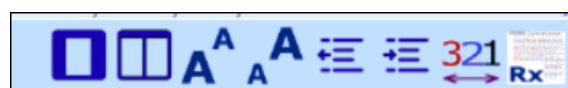

Enhanced charts & graphs have are used throughout – allows you to click on a remedy, family, kingdom or miasm and see information (where available)

## Resource bar

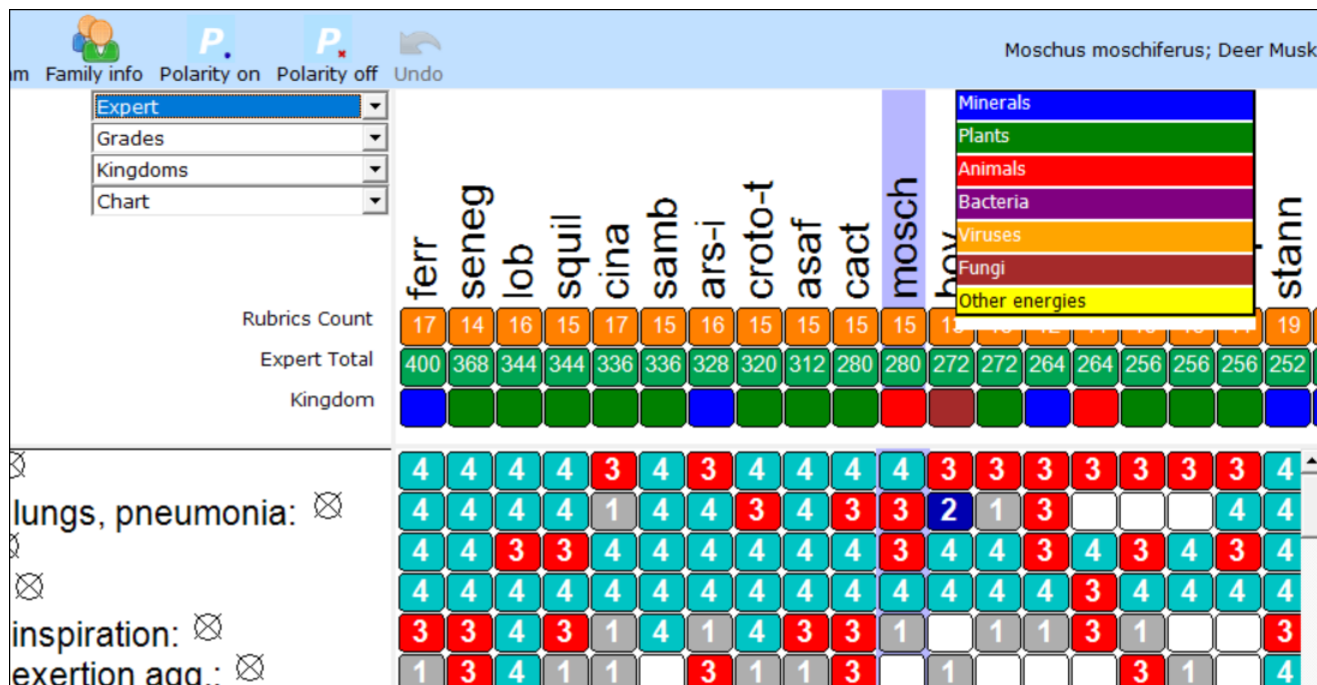

A new bar along the bottom of the screen gives you easy control over the screen display. Order your books (new Top, Bottom, Up and Down icons) so you can fine tune the Vision display of repertories and materia medicas to your preference.

While viewing the repertories there is one click access to set the size of text displayed or to increase the indentation in the repertory. You can easily change the number of columns displayed and even tell Vision to display the remedies in each rubric ordered by grade (not only abbreviation).

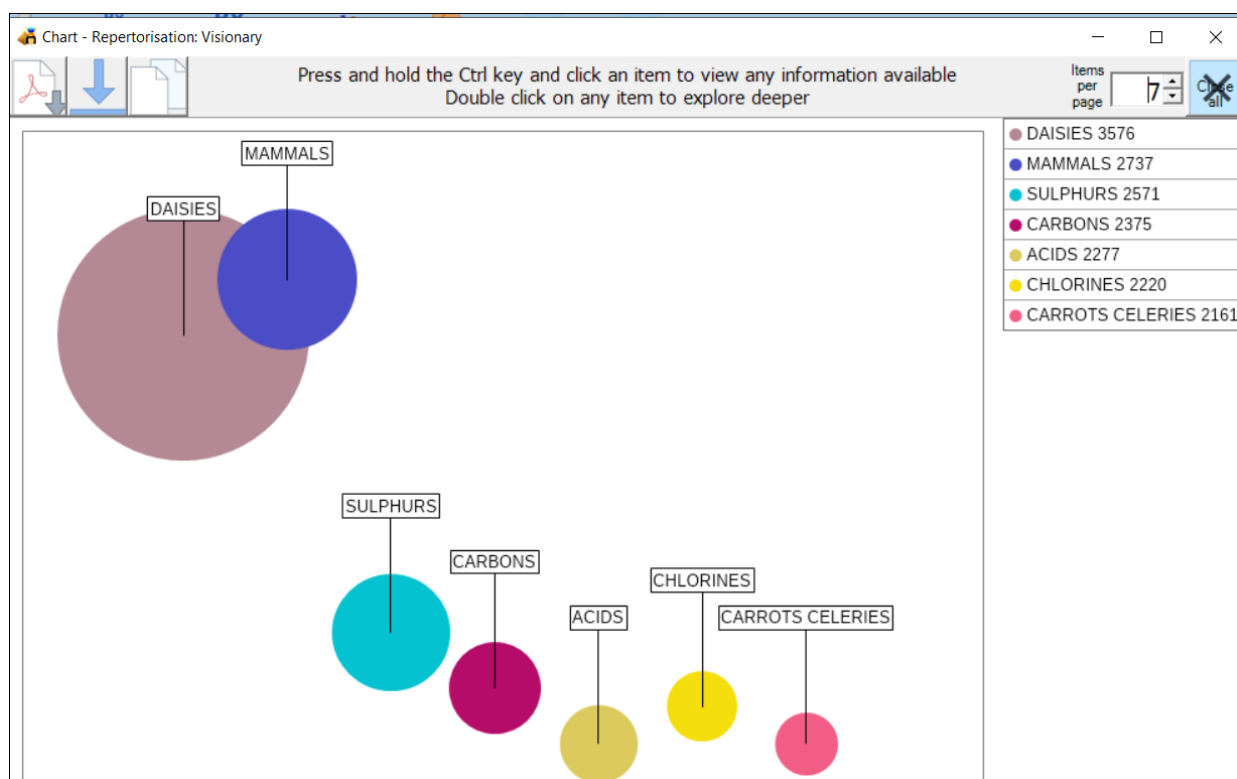

## Repertorisation Chart

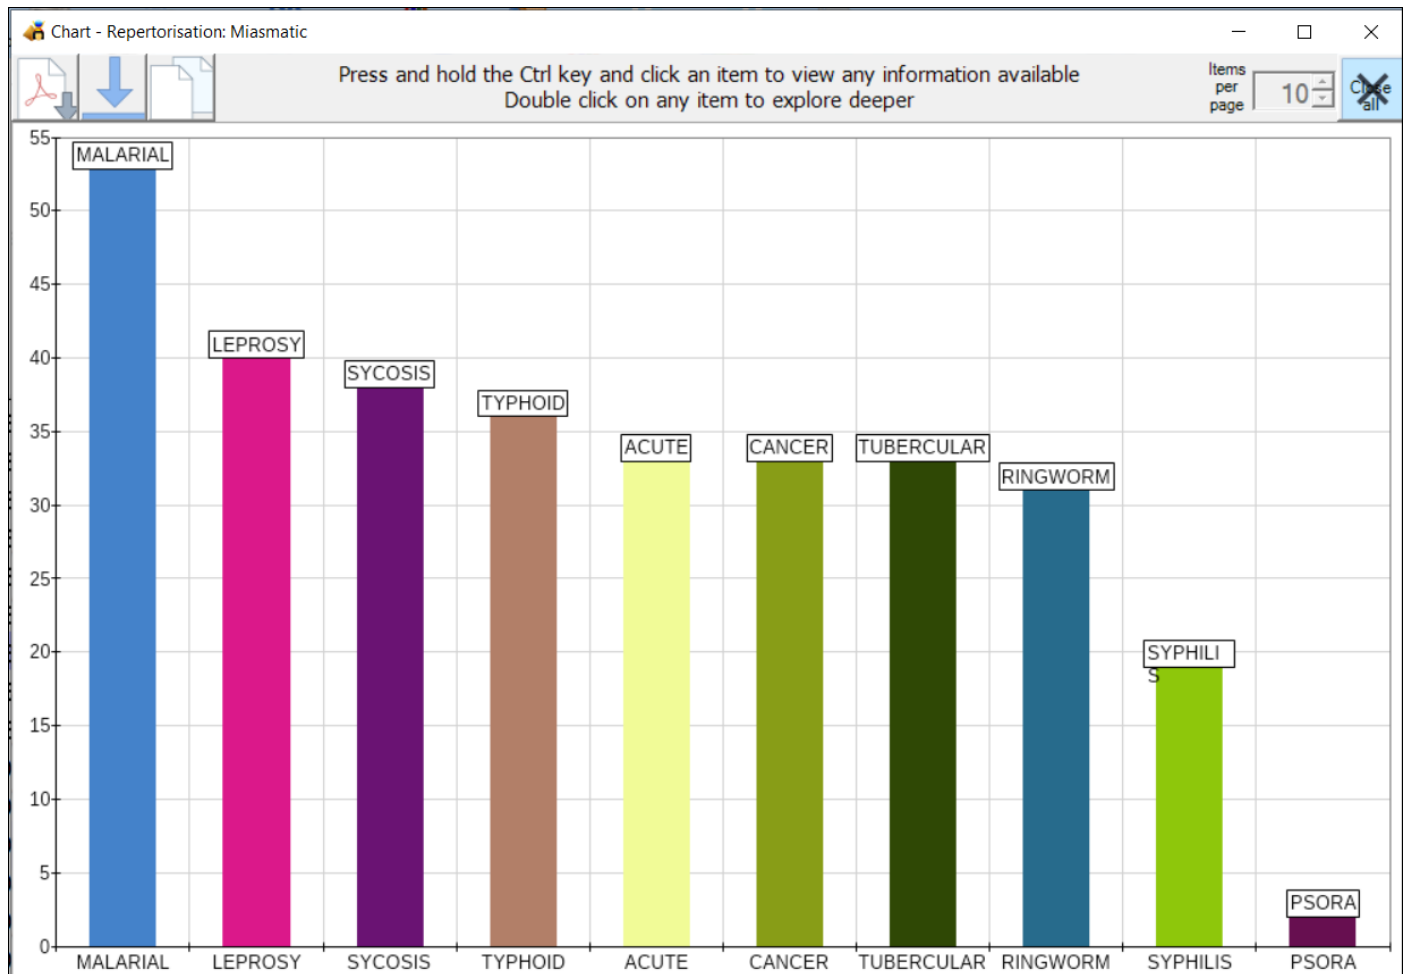

The chart has a new toolbar to provide easy access to features. The toolbar provides single click access to Family, Remedy & Materia Medica information for any selected remedy. New colour boxes are displayed to show the representation of each kingdom in the remedies. The full remedy name is now displayed on the toolbar when clicked (helpful if you do not recognise the abbreviation in the chart).

A new **Visionary** chart is provided (shows the 'strength' of a family in analysis not only the number of remedies)

There is also a new Miasmatic chart – which shows the leading ‘enhanced’ miasms in your analysis.

The Periodic table has been refreshed. Rows, columns and individual elements can be selected and used to filter any repertory chart for accurate work. An Information button will also provide data on your selection (where available).

**Periodic Table**

Group	1	2	3	4	5	6	7	8	9	10	11	12	13
1	1 H												
2	3 Li	4 Be											5 B
3	11 Na	12 Mg											13 Al
4	19 K	20 Ca	21 Sc	22 Ti	23 V	24 Cr	25 Mn	26 Fe	27 Co	28 Ni	29 Cu	30 Zn	31 Ga
5	37 Rb	38 Sr	39 Y	40 Zr	41 Nb	42 Mo	43 Tc	44 Ru	45 Rh	46 Pd	47 Ag	48 Cd	49 In
6	55 Cs	56 Ba	*	71 Lu	72 Hf	73 Ta	74 W	75 Re	76 Os	77 Ir	78 Pt	79 Au	80 Hg
7	87 Fr	88 Ra	*	103 Lr	104 Rf	105 Db	106 Sg	107 Bh	108 Hs	109 Mt	110 Ds	111 Rg	112 Cn
			*	57 La	58 Ce	59 Pr	60 Nd	61 Pm	62 Sm	63 Eu	64 Gd	65 Tb	66 Dy
			*	89 Ac	90 Th	91 Pa	92 U	93 Np	94 Pu	95 Am	96 Cm	97 Bk	98 Cf
													99 Es

**Potassium (Kali) Family**

**Series 4 themes** : Work. Tasks. Duty. Principles. Rigidity. Perfectionism. Practical. Rules. Order, disorder. Fastidiousness. Control, issues around. Criticism. Failure. Guilt.

**Stage 1 themes**: Impulsive. Starting new things. Spontaneous. No doubts, just get on with things. Do things their way. Careless behaviour.

**Needs to depend totally on someone else** (Sankaran)

Rigid - set in their ways. **Cannot protect myself.**

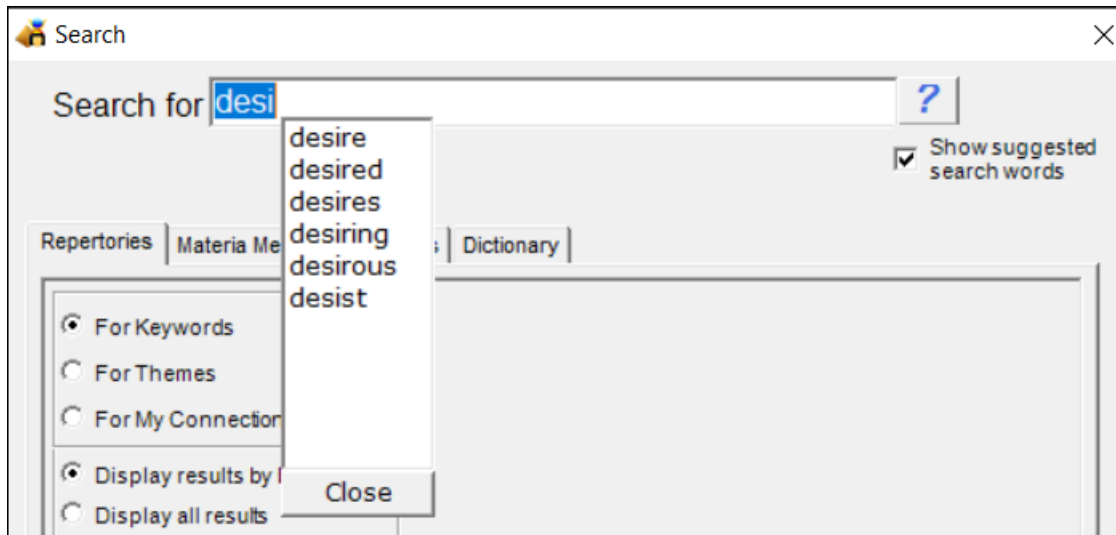

Strong sense of Duty. Guided by principles

Close

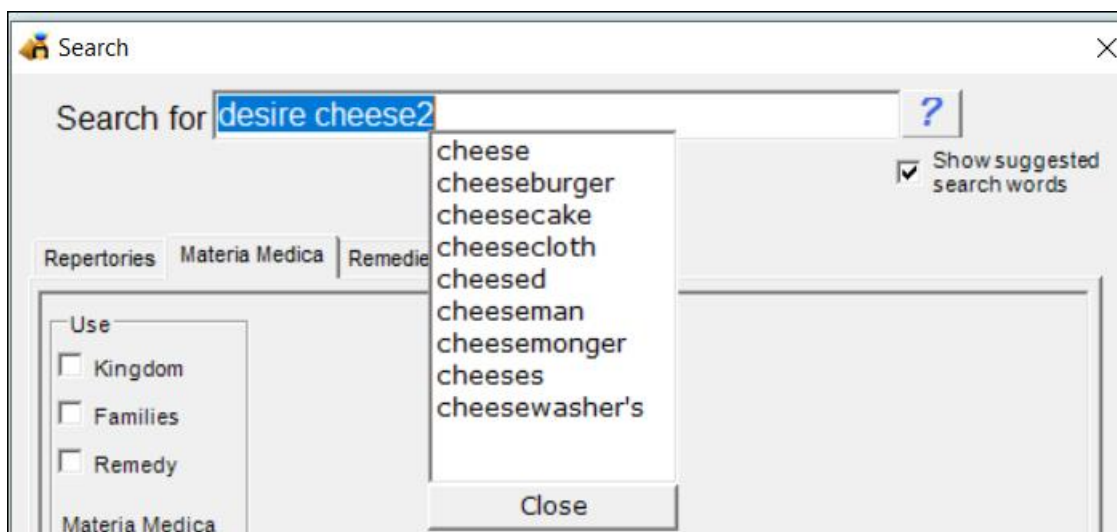

You can easily Delete any rubric on a chart (and Undo if required!) with no need to return to a clipboard to do so. When using the Complete Repertory you can quickly use a cross-reference and substitute a rubric with another and immediately see a new analysis. There is an option to highlight an entire Row and/or Column. It is now possible to 'drag' a selected rubric to special icon at the bottom of the screen and Vision will quickly open the repertory positioned exactly at that rubric.

### Book Searching

When typing a few letters of your search word Vision will display a dropdown list of matching words – helps you find words easily and confirm that a word you are typing exists).

When searching materia medica you can type in a number after your search words to limit the matches

There is now a new Author search facility that allows you to research and find additions made to the repertory by specific authors (Complete Repertory required).

## Remedies

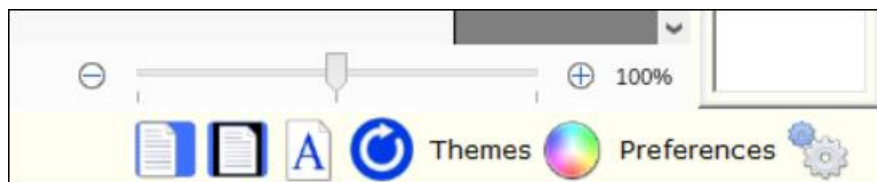

You can now find the remedy you want much quicker in the resource tree. One click access is available on any hyperlink (blue) shown on this screen so you can obtain more information (when available) or to see related remedies. There is a new button that lets you see a list of all remedies that have audio lectures available for them.

A new word processor has been added into both the Keynotes and Relationships sections to help you add and format your own information.

The screenshot shows the 'Agar' remedy page. The title is 'Agar' with the scientific name 'Amanita muscaria (Agaricus muscarius)'. Below it, there are links for 'Fungi', 'Agaricales', and 'Amanitaceae'. Further down, there are links for 'Cold', 'Thirsty', and 'Right'. A 'Frequent' section lists 'States: Cancer'. A 'Miasms' section lists 'Ptoric', 'Cancer', 'Sycotic', 'TB', and 'Syphilitic'. There is a 'Play Digital Remedy' button. On the right, there is a 'Similar Remedies' section with a list of remedies: Arg n, Ars, Cupr, Nit ac, Rhua t, Zinc. Below this, there is a 'Therms' section with 'Chilly'. A 'Thirst' section lists 'Thirsty'. An 'Ailments from' section lists 'Indolent circulation: Blood poisoning;', 'Alcohol, debauch;', 'Sexual excess;', and 'Suppressed eruptions.'. An 'Aggravation' section lists 'After eating, after coitus, moving, pressure;', 'Cold air, freezing air;', 'Mental application;', and 'Before thunder storm;'. On the right side, there is a large image of a red mushroom with white spots, identified as 'Amanita muscaria'. Below the image, it says 'audio by David Mundy'.

## Materia Medicas

There is a new slider bar so you can easily increase or decrease the text size of books displayed. Better control over the appearance of any book in your system is provided with a Font control so you can easily set a new Font and Character size for all books.

See beautiful images and charts if provided in a book (e.g. Sherr Provings).

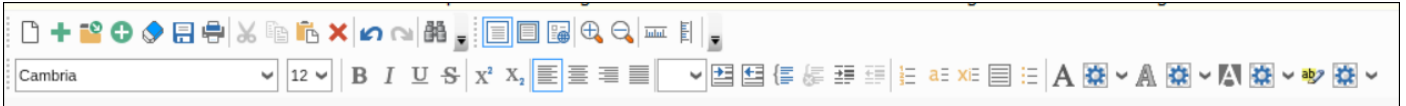

The screenshot shows the 'Sherr Provings' book interface. The left sidebar contains a list of books, including 'Pulford Leaders', 'Pulford MM Graphical Drug', 'Reversed Combined Repertory', 'Reversed Phatak Repertory', 'Roberts Principles and Art', 'Roberts Sensations, as if', 'Roberts Rheumatic Remedies', 'Royal Textbook of MM', 'Schmidt Case Taking', 'Schmidt Hidden Treasures', 'Sherr Methodology and Polaris', 'Sherr Animals', 'Deer Fallow', 'Salmon', 'Toad Common', 'Sherr Birds', 'Eagle', 'Swan Whooper', 'Sherr Gases', 'Sherr Gems', 'Sherr Metals', 'Sherr Plants', 'Sherr Radioactives', 'Sherr Trees', 'Speights Sudy Course', 'Teste Diseases of Children', 'Thomson Collected Articles', 'Tyler Acute Conditions', and 'Tyler Chronic Conditions'. The main area displays a large image of a deer lying down. Below the image, the text reads 'Dama dama' by 'Jeremy Sherr & The Dynamis School UK'.

## My Notes

Now you can add 'books' and 'chapters' into your own notes. When linking from the repertory or repertorisation chart for any remedy any My Notes additions you have made for that remedy will be automatically opened alongside normal books.

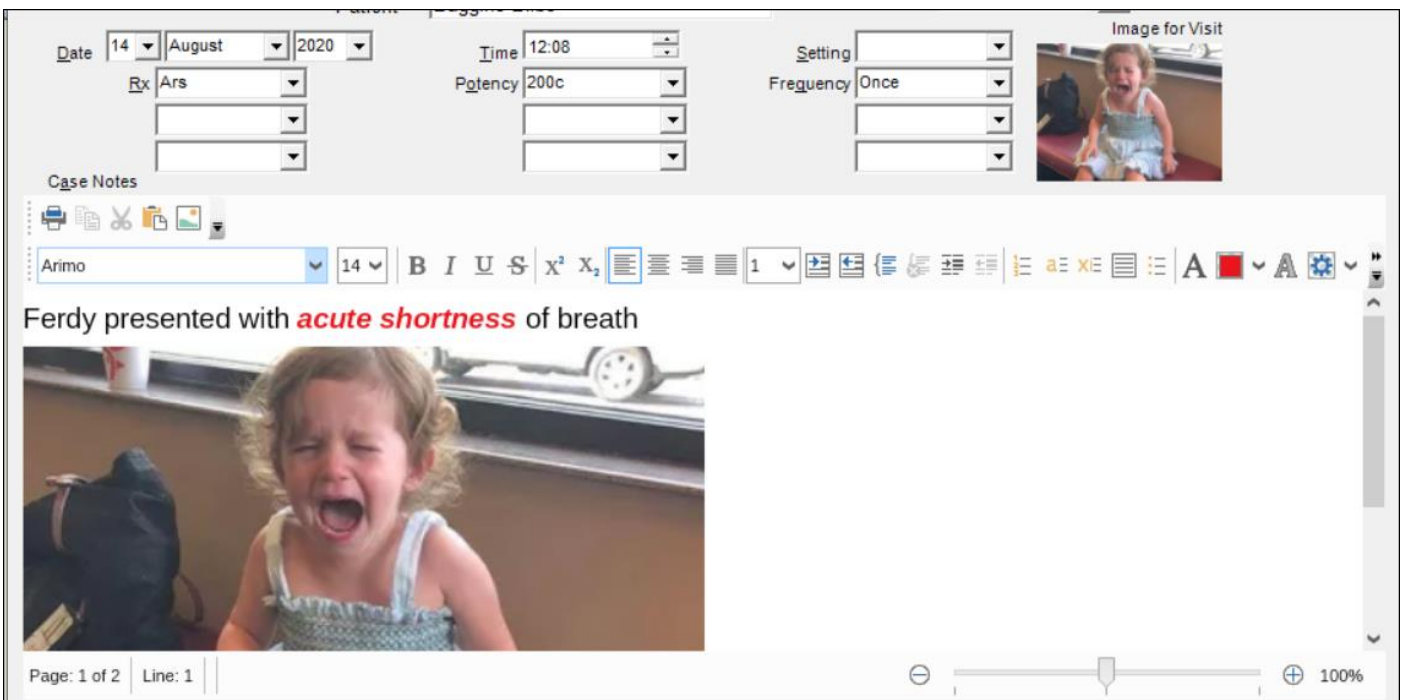

All notes you add will be indexed and included in your materia medica searches.

A new word processor lets you add an unlimited amount of notes and include charts and images by import files/photos or pasting them in.

## Patients, Cases and Visits

A word processor has been added into the Visit Notes section. This allows you to record an unlimited amount of notes for each consultation/visit. The notes can include any photographs you wish to include and provides full formatting of text.

## Clipboards

Selecting rubrics has been made easier – now 'blocks' of rubrics can be selected rather than each rubric having to be clicked. Moving selected rubrics to other clipboards is much easier. Keyboard shortcuts have been added for those who prefer to use them.
