BASILDON DISTRICT REPORT FOR COUNTY MEETING 9TH MARCH 2021

We continue to service our existing watch areas but mostly at arms length due to current government restrictions. The recent cold snap has also contributed to a slowing down of activity in new watch creation.

Our new county wide liaison with Essex Highways on the placing of NhW signs on the highway is now underway but has yet to be properly tested as again the weather has resulted in very few applications being made by our districts. The single application made by Basildon so far was turned around within 2 weeks which was encouraging.

In advance of the upgrade to the Alert database all registered schemes in the district have now been mapped and approved by the MSA.

Clive Woodward

Chair, Basildon Borough Neighbourhood Watch
