

Natural shades of color for every skin tone to match, mix or fix. Colors formulated to camouflage and neutralize - from lightest to darkest, from natural tones to brightest tones.

With hues of Rose, Olive, Brown to Jet Black, every color in the palette comes to life! Precise values of beiges will conceal imperfections, even scarring.

Our professional support team helps technicians achieve the most successful results possible with the Biotouch MicroPigment and Corrective Color line.

The consistency and quality in each bottle gives assurance that every permanent makeup as well as para-medical procedure is going to begin with the most reliable formulations of choice around the world!

Micropigments are also available in 7 corrective colors for skin tone, to camouflage and conceal imperfections.
