Course Structure and Content

Week One - Introduction

Skills that will change your life. Helen shares her story of how she learnt to overcome hardship, rejection, loss of identity, fear, insecurity, anger, divorce and mental torment.

Week Two - Words

Words are powerful! They have the power to do good or to do harm. They can be deadly as a viper or as gentle as a dove.

Week Three - Believe

What you believe is what you will become! Negative thinking is not sustainable; it is not healthy for our mental well-being. So we need to rethink how we see ourselves in a more positive light.

Week Four - Identity

Be transformed by the renewing of your mind. Rule over your emotions; don't let them rule you. Chemical reactions caused by your emotions have an impact on your health, so learn how to take control instead of being controlled.

Week Five - Personality Types

Using the four personality traits of 'Victim', 'Rescuer', 'Persecutor' and 'Victor', we will learn to recognise when each is most dominant in our lives at any one time. Learn to recognise the circle of life and live as the 'Victor' in your own world.
