FULL BIOGRAPHY

Maya Wolff is a German Singer/Songwriter based in Brighton, UK. The talented musician has been working as a featured artist with producers across the electronic/bass genres all around the world, making a name for herself as a well-known vocalist.

She has now established herself as a leading voice in the electronic dance music scene with her own EP and sound, repeatedly charting at Beatport with one of her latest release reaching No.1 in the Trance releases.

At the young age of 19, she moved to the UK to pursue her career as a singer & dancer in pop group after having toured with dance companies and her solo music career throughout her teenage years. She decided to move away from Pop music and dancing to pursue her path within the electronic/bass music scene.

With her heart set on writing and performing Electronic and Bass music, she has been working with producers around the globe, releasing her debut single "Trusting You" (Lumpsum) in March 2013. Ever since she had an endless amount of interest from producers and has released "Like a Teenage Dream", "If the Sky", "Just while you cry", "Pay off" throughout 2014, followed up by Beatport Top 40 hitting success single "Midnight Sun", "Hot & Cold" in 2015 and Top 10 hitting "I Can't See The Ground" in 2016. 2017 saw the release of "Just be mine" and her first Trance release "What If We can", followed up by No1 (in the Beatport Trance Release charts) charting Single&Remixes "More Than Anything" in 2018! 2019 was a strong year with a handful of Trance releases reaching the Top 10 Beatport charts. Especially well did "You can let go", a collab with James Tullar and "In The Places I hide" with Arsen Gold.

2020 was a big year launching her own label "Wolff Recordings". The first collaboration release EP "Captured"- a 4 track EP with melodic vocal trance tracks has attracted major radio play and reached the Beatport Top 10 Trance Releases Charts.

The end of 2020 focussed on Maya Wolff as a solo artist releasing her solo debut EP "Fast forward". The Dance EP with a commercial touch accompanied by 2 music videos and remixes by the legends Steve Brian and Austin Leeds was picked up by BBC Introducing, countless podcasts and mixes and is getting close to 200K streams on Spotify, not to mentioned charted at No 5 in the Beatport Releases charts.

Her Strong fanbase and support from her global audience has led her to performances on Broadway NYC, European Festivals and at home in the UK.
