

MELT & POUR

CRYSTAL OV - OLIVE OIL

THE IDEAL STARTING POINT FOR CREATING HANDMADE SOAPS, CREATE A WIDE RANGE OF BEAUTIFUL PRODUCTS. SIMPLY COMBINE COLOUR AND FRAGRANCE TO TAILOR YOUR SOAPS.

Vegetable based, melt and pour soap base. In **Crystal OV**, 20% of the oils used are from Olive. **Crystal OV** has brilliant clarity which enables embeds to be seen or layering to be distinct. Used for manufacture of high quality olive oil transparent soap bars.

Made with pure virgin olive oil, this soap base has a rich lather with excellent moisturizing benefits. **Crystal OV** has a very slight green hue to it due to the natural olive oil added, all the while remaining highly translucent and very rich looking. There are no artificial colors added.

- > Made using Olive Oil
- > Fantastic Clarity
- > 20% of the oils used are Olive Oil.
- > All vegetable based.
- > Excellent foaming.
- > Good moisturising from a very high glycerine content which provides a pleasant skin feel.
- > Superior colour stability even if kept at a high temperature for extended periods.
- > Neutral odour provides excellent fragrance lift.
- > Naturally has the light brown colour of the organic oil
- > Conditioning Formula

MADE IN ENGLAND

GUIDE RECIPE

Here we show you how to create a simple **Crystal OV - Olive Oil Soap Bar**.

To create your very own set of hand made glycerin soap bars, here is what you'll need:

- > **Crystal OV - Olive Oil** - Slice into meltable chunks
- > Fragrance if you wish
- > Add dried Botanicals if you wish
- > A soap mould and slicer
- > Microwave / Double boiler

Open / Cut - Simply open the packaging, safely cut the Crystal soap base into smaller cubes, doing this will make the soap easier to handle and melt.

Melt - Gradually heat the soap base ensuring that the soap melts evenly and does not boil and burn. If you are melting in a microwave please be careful and keep an eye on the soap as it can bubble over the container.

Mix - You can use Essential Oils, Fragrances, Colours, Botanicals and Additives. Simply add to the melted soap base, mix gently ensuring that any fragrance you have added is evenly distributed throughout the soap base.

Pour - Working quickly, simply pour your soap base into your soap mould. At this point you can add dried botanicals to the surface of the soap, by gently pressing them into the top of the soap if you wish.

Create - Once your soaps have set and fully hardened simply remove from the moulds. We recommend always wrapping your soap bars immediately after releasing from the moulds to protect and preserve the soap.
