

# MELT & POUR

CRYSTAL OPC - FOAMING BATH BUTTER

THE IDEAL STARTING POINT FOR CREATING WHIPPED SOAPS, CREATE A WIDE RANGE OF BEAUTIFUL PRODUCTS. SIMPLY COMBINE COLOUR AND FRAGRANCE TO TAILOR YOUR SOAPS.

**Crystal OPC** Trademarked as 'Foaming Bath Butter' is a unique and innovative product, designed for whipping. **Crystal OPC** is an incredibly flexible product. Users can create simple whipped foaming bath butters, sugar scrub, body soufflé, or a salt scrub, all from one soap base.

- > Paraben and MPG Free
- > It can be used for shower, bath or facial wash applications
- > It produces a creamy lather with fantastic levels of foam
- > Mild Formulation  
Non skin irritant by Zein test
- > Moisturising formulation that is rich in glycerine Ultra
- > high foam

To process, simply use a mixer- whip/beat the **Crystal OPC**, follow by adding sugar, fragrance, essential oils or any other additives and continue whipping until the desired volume is achieved. The product is used to create a wide range of different whipped foaming body scrubs.

MADE IN ENGLAND

## GUIDE RECIPE

Here we show you how to create a simple **Crystal OPC - Foaming Bath Butter Soap Bar**.

---

To create your very own set of hand made glycerin soap bars, here is what you'll need:

- > **Crystal OPC - Foaming Bath Butter** - Slice into meltable chunks
- > Fragrance if you wish
- > Add dried Botanicals if you wish
- > A soap mould and slicer
- > Microwave / Double boiler

**Open / Cut:** Simply open the packaging, safely cut the Crystal OPC / Foaming Bath Butter soap base into smaller cubes, doing this will make the soap easier to handle and whip.

**Add:** Cut your Foaming Bath Butter into chunks and place into a mixing bowl. You can now add a wide range of ingredients, such as Essential Oils, Salts, Sugar, Fragrances, Colours, Botanicals and Additives to customise your whip product. Simply add these to the soap base.

**Mix:** Begin to whip the product gently, gradually increasing the speed of the mixing head. Continue to do so for approx. 20-30 minutes, ensuring that any fragrance, additives you have added are evenly distributed throughout the whipped foaming bath butter base

**Remove:** Once you are happy with the consistency of the product simply scoop out and fill your tubs. We recommend using wide body scrub tubs for this product as the base is too viscous for tubes and squeezable applications.

**Create:** Once the product is filled and settled, you are ready to go. Crystal OPC / Foaming Bath Butter is a versatile product that allows you to create a wide range of scrubs, and whips.
