

# MELT & POUR

CRYSTAL JS - JELLY SOAP

THE IDEAL STARTING POINT FOR CREATING HANDMADE SOAPS, CREATE A WIDE RANGE OF BEAUTIFUL PRODUCTS. SIMPLY COMBINE COLOUR AND FRAGRANCE TO TAILOR YOUR SOAPS.

**Crystal JS** (Jelly Soap Base) is a unique and innovative new soap base. It integrates with other Crystal melt and pour bases, so can be layered and embedded. **Crystal JS** melt and pour soap base, is vegetable based, and used to produce a range of jelly soap products.

**Crystal JS** can be melted just like other melt and pour bases. Use to add layers or embedments or just on it's own to make new and interesting creations

- > Unique Jelly Formulation
- > Vegetable based
- > Sets to form a jelly solid product
- > Fantastic transparency enables bright colours
- > Good foaming
- > Excellent moisturising from a high glycerine content which provides a pleasant skin feel
- > Superior colour stability even if kept at a high temperature for extended periods
- > Neutral odour provides excellent fragrance lift
- > Ideal for pouring and moulding
- > Can Be Sliced

MADE IN ENGLAND

## GUIDE RECIPE

Here we show you how to create a simple **Crystal JS** Soap Bar.

---

To create your very own set of hand made glycerin soap bars, here is what you'll need:

- > **Crystal Crystal JS** - Slice into meltable chunks
- > Fragrance if you wish
- > A soap mould and slicer
- > Double boiler / Melting tank

**Open / Cut** - Simply open the packaging, safely cut the Crystal Jelly soap base into smaller cubes, doing this will make the soap easier to handle and melt.

**Melt** - Gradually heat the soap base ensuring that the soap melts evenly and does not boil and burn. We recommend melting this base slowly in a Double Boiler / Bain Maire.

**Mix** - You can now add Essential Oils, Fragrance and Colours. Simply add to the melted soap base, mix gently ensuring that any fragrance you have added is evenly distributed throughout the soap base.

**Pour** - Working quickly, simply pour your soap base into your soap moulds or tubs.

**Create** - Once your soaps have set you can simply remove from the moulds. We recommend using small tubs to sell and distribute this product to protect and preserve the soap in store.
