

S2B-S3B

Power, simplified

Singlephase wet and dry industrial vacuums, much more than essential

Essential, powerful, efficient.

Models S2B and S3B are the starting point to get the maximum advantages and the undisputed benefits that include, among others, the obvious and immediate savings of time and resources.

2 single-phase models (2 or 3 kW), respectively with two or three independent motors, the S2B and S3B industrial vacuums can collect solids and liquids. In particular they are designed to be used in mechanical manufacturing production sites to extract metal chips, metal filings, oil and lubricant solutions.

S2B and S3B, much more than essential.

Optional HEPA filter
