

Neo Series, Key: Eb, Material: Yellow brass, Valves: 3 top action, Bell: 210mm (8.071") , Bore: 11.9mm (0.469"), Finish: Silver-plated

### Partners in harmony

We analyzed and re-evaluated every part and component to create an instrument that delivers richer resonance and more expressive depth. It produces a graceful tone that enhances the tenor horn's presence while delivering the tone color, volume, resistance, and accurate pitch that brass band performers and soloists demand in an instrument.

### Features

#### Bell

The new YAH-803S features a one-piece yellow brass bell. With a diameter 5mm larger than that of the YAH-602, the new horn's dynamic range is increased noticeably.

## Features

### First Branch

The first branch features a newly designed taper improving tone and pitch.

### Valve Casing

The YAH-803S's valve casing benefits from a new, heavier design. The sound becomes more rich and powerful from the additional weight.

### Tuning Slide

Additional improvements to sound, pitch, dynamic range and playability have been achieved with the development of a wider, newly tapered tuning slide.

## Features

### Bell

The new YAH-803S features a two-piece yellow brass bell. With a diameter 5mm larger than that of the YAH-602, the new horn's dynamic range is increased noticeably.

### First Branch Taper

The first branch features a new design that offers improved pitch and greater tone colour. The main tuning slide is designed with a new taper and wider bow that produces greater tone colour, a freer feel, more accurate pitch, and greater dynamic range.

### Valve Casing

The YAH-803's valve casing benefits from a new, heavier design. The sound becomes more rich and powerful from the additional weight.

## Features

### Mouthpiece Receiver & Brace

The mouthpiece receiver and brace design produces a moderate amount of resistance and thicker sound when playing, delivering greater projection and expressiveness.

### Case

Hard case AHC-803 with strap.
