

Bb Cornet, Bell: Yellow brass, 119.0mm (4-2/3"), Bore: ML 11.65mm (0.459"), Finish: Silver-plated, Weight: Medium, Mouthpiece: CR-11E4

We have kept the basic design of the hugely successful YCR-2330 and YCR-2310 cornets and added some modifications. The new ML-bore size helps the beginner to get a quick and easy response. Now benefiting from a modified two-piece yellow brass bell 2000 series cornets have the ideal thickness brass bells and a round lead-pipe for improved sound and playability. The 2000 series also benefits from newly designed heavier valve caps offering a full sound and great projection.

## Features

### Yellow brass bell

The newly redesigned, durable yet light two-piece bell is made of yellow brass for optimal playability and to promote good technique and endurance.

### New piston, piston caps and buttons

Highly durable monel alloy pistons as well as newly designed piston buttons and bottom caps help lengthen the life of the instrument while also maximizing sound quality.

## Features

### New tuning slides

The 2nd and main tuning slides are produced using the same method as high-end Yamaha models, which provides stability, a more refined tonal color and added durability.

### Bore size and lead pipe

The redesigned rounded leadpipe and ML (medium-large) 11.65mm (0.459\") bore give this instrument a smooth and light response and a warm tone quality.
