

# MINI FELT BUNTING INSTRUCTIONS

## You will need:

Lots of colourful felt  
Bakers Twine or string  
PVA or Fabric Glue  
Instructions & template  
Scissors

## Mini Felt Bunting Instructions:

Using either the flag or the triangle template (or both) cut as many flags or triangles needed for the length of bunting required. The finished triangles are 8cm wide approx & the finished flags are 6cm wide approx. Cut your Bakers Twine or string to the length you require adding 90cm of twine or string to each end for tying up your finished bunting.

Fold all of your flags or triangles in half, then unfold them & put them on the surface in front of you in the order you want them, Lay the twine along the flags with the twine sitting in the central fold line of each flag or triangle.

Then, one flag/triangle at a time add dots of PVA glue around the edge of the flag/triangle, then fold & squeeze together, repeat this for each triangle or flag. Once you have finished place your bunting under a couple of heavy books & leave to dry. Once dry, hang your bunting & enjoy your celebrations!
