

HOW TO READ CHORD BOXES

Chord boxes show you where to place your fingers on the strings to make a chord shape. Fingers are numbered 1,2,3 & 4 from index to little finger.

These Xs tell you to avoid playing these strings (bottom E and A) for this chord.

These numbers show which finger to place on the string they are written under.

This O shows that you can play this string but without a finger on the frets – this is called an open string.
