FOREWORD

Dreamstone Holistics - Therapies & Training (DHTT) provides high quality, accredited training for Crystal Therapists at Foundation, Certificate & Diploma levels, Reiki teaching up to Level 3 Master Teacher and instruction in Meditation techniques in venues within the South Wales area.

Dreamstone Holistics - Therapies & Training is:

- A member school of the Affiliation of Crystal Healing Organisation (ACHO)
- Registered with the Crystal Therapy Council (CTC), which is recognised by the General Regulatory Council for Complementary Therapies (GRCCT) as the leading body for Crystal Therapy in the UK.
- An Accredited College with Complementary Health Professionals

Helen Jane Meyrick BSc. (Hons), PGCE, Grad. (ICGT), MFHT, BSoM (Dip)

I am the Principal of Dreamstone Holistics - Therapies & Training and an experienced tutor, therapist and Reiki Master Teacher. I was a tutor for Coleg Gwent in the field of IT from 2005 to 2014 and became qualified, gaining my PGCE in 2008.

MY TRAINING & QUALIFICATIONS

I initially gained VTCT qualifications in Anatomy & Physiology and in Crystal Therapy at Tamworth College and then went on to further my learning by training for my Crystal Therapy Certificate and Diploma with the Institute of Crystal & Gem Therapists (ICGT).

Alongside my training in Crystal Therapy I also became attuned to Reiki from Level 1 through to Master Teacher level with Lorraine Rees of Reiki Wales in Gorseinon.

I transferred my teaching knowledge, experience and skills to the field of holistic therapies in 2011 when I started teaching Reiki Levels 1 and 2 for the first time, taking the innovative step of teaching it as a continuous series of evening classes as opposed to the more common approach of one or two-day weekend workshops. This was done because I believed that it ensured the students received continuous support on their Reiki journey from both myself and their fellow students and that it would hopefully foster a lasting bond of friendship between the students.

In 2012 I was amongst the first group of students to train with Mary Pearson & Helen Galpin, principals of the British School of Meditation for their inaugural Teaching Meditation course and passed the course with distinction.

PROFESSIONAL MEMBERSHIPS

I am a member of the Federation of Holistic Therapists (FHT), a qualified Meditation Teacher with the British School of Meditation and listed on the practitioner registers of:

- The General Regulatory Council for Complementary Therapies (GRCCT)
- The Affiliation of Crystal Healing Organisations (ACHO)¹

¹ I am currently Practitioner Register Administrator of ACHO and former Treasurer

WORKSHOPS & COURSES 2017

WORKSHOPS

Dreamstone Holistics One-day Workshops are non-accredited tutor-led days which can be used for personal development and/or CPD. They are suitable for those seeking an introduction to a topic or for existing therapists & holistic practitioners wishing to enhance their knowledge.

The number of attendees is kept to a maximum of 6 (although in some cases, where the venue and subject matter permit, this may be increased).

Workshops vary in length and may be half-day or full day.

Generally one-day workshops commence between 9.30am and 10am and finish between 4pm and 4.30pm and will include breaks for refreshment.

The duration of half-day workshops is 3-4 hours depending on the content and may either run in a morning, afternoon or evening.

Light refreshments are included (e.g. drinks and light snacks), however attendees are expected to provide their own luncheon.²

All workshops must be booked in advance and a small deposit paid in order to secure a place with the remaining payment being made at the start of the workshop.

Any known health issues may be discussed in confidence prior to the workshop in case of any conditions which may be contra-indicated (e.g. pregnancy, epilepsy etc.)

Prices shown for courses and workshops are dependent on the venue.

² Applies to workshops run at Vincent House only. Arrangements at other venues may vary.

ENHANCE YOUR REIKI WITH CRYSTALS

DESCRIPTION

I have been asked why I feel the need to use crystals in a Reiki treatment. I have discovered that whilst Reiki provides much-needed energy to support a person when they are ‘healing’, the crystals can provide a trigger to facilitating changes, which may be required to bring about a sense of balance and harmony. This workshop is a day of discovering how the vibrational energy of crystals can be used to enhance a Reiki treatment and how the differing energies of Reiki & crystals can work together.

Attendees must be at least Reiki Level 1 attuned.

COURSES

REIKI

WHAT DO THE DIFFERENT LEVELS OF REIKI MEAN?

If you want to learn Reiki for personal use and for treating family & friends, but do not wish to be an insured practitioner, charging for treatments or volunteering in hospices etc. then Reiki Level I is just right for you and you need go no further.

If you want to-

- Learn how to do distance healing
- Gain insurance
- Charge for treatments

Then Reiki Level II is the way forward, having gained Reiki Level I first.

If you feel that, having achieved Reiki Levels I & II that you want to further your practice but do not want to become a Reiki Teacher, then Reiki Level III (ART) is the natural progression.

For those who want, like me, to share what they have learned and spread Reiki further then Reiki Level III (Teacher) is the final stage.

If you require a formal, accredited qualification in Reiki which is compliant with National Occupation Standards and adheres to the Core Curriculum of the Reiki Council then the Reiki for Therapists course is the one for you.

COURSE STRUCTURE

The general method of teaching Reiki Levels is usually delivered via one- or two-day workshops, which means that there is a lot of information passed on by the teacher and, often, little time for the practice of giving & receiving Reiki. This was how I was taught Reiki. I prefer to teach Reiki in a more drawn out way i.e. as a series of evening classes or half-day workshops spread over a number of weeks. I feel that this method of delivery provides better opportunities for students to:

- Have time to assimilate the Reiki energy
- Ask questions to allay any doubts & worries
- Receive feedback
- Form supportive bonds with fellow students & myself
- Gain plenty of practice giving Reiki
- Receive Reiki to help them with their own development
