

1-SERIES VAN-PACK JETTER

FLEXIBLE FINANCE

A range of finance options are available to help spread the cost of the jetter, the vehicle, interior conversions and additional equipment.

The 1-Series high-pressure jetting machine can be installed in the smallest commercial vans due to a dry weight of under 250KG.

Developed with the performance and specification of much larger jetting machines, this compact powerhouse is the ultimate low-cost solution for domestic drainage and cleaning contractors and large scale users.

Safety was a key aspect in the design of the 1-Series, with the inclusion of automatic HP pump protection and engine revs reset; features not usually available at this price point.

Powered by an emission compliant, fuel-injected 23HP V-Twin OHV petrol engine, the 1-Series offers maximum fuel efficiency and performance. It uniquely features an electronic control panel for ease-of-use and offers low-cost remote

control upgrades due to the plug and play characteristics of the unit.

The lightweight machine features large capacity jetting and filling reels, unloader valve system and anti-freeze valve as standard. Installation and handling have been made easy due to the inclusion of dedicated lifting points, and its compact dimensions mean the unit can be fitted in small commercial vans with room for additional tools and equipment.

TECHNICAL SPECIFICATION

Pipework Diameter	Up to 200mm
Performance	3000PSI @ 8GPM (200 BAR @ 36LPM)
Std Water Tank Capacity	250 Litres (55 Gallon)
Engine	Briggs and Stratton Vanguard EFI V-Twin Petrol Engine
Engine Power	23HP (17.2kW)
HP Pump Type	Triplex Plunger Pump
Engine Cooling	Air Cooled
Run Dry Protection	Standard
Frost Protection	Anti-Freeze Valve
HP Reel	Manual
Hose Guidance	Not Included
Hose	60 Metres 3/8" Jetting Hose (195ft)
Reel Arrangement	Fixed Hose Reel
Filling Hose	25M Reel
Control Box	Push-Button Controls
Pressure Relief System	Unloader Valve
Remote Control	Optional 5 Channel Radio or Foot Pedal Systems
Construction	Compact Mild Steel Construction, Powder Coated
Accessories Included	2 Standard Nozzles, User Manual, Leader Hose
Approx. Dry Weight	250KG
Approx. Max Weight	500KG (with standard 250L water tank)
Dimensions (mm)	1050mm D x 1130 W x 1020 H (with standard water tank)
Fuel Tank Capacity	15 Litres
Base Vehicle Suitability	Ford Transit Connect, Vauxhall Combo/Vivaro, Mercedes Benz Citan, VW Caddy/Transporter, Renault Trafic, Peugeot Expert

UPGRADES + OPTIONS

- 5 Channel Radio Remote Control
- Lightweight Jetting Hose
- Leader Hose
- Mini Hose Kit
- Safety Lance
- Dry Shut Lance
- Range of Nozzles and Nozzle Kits
- Hydraulic Root Cutter
- Chain Flail Kit
- Rotary Floor Cleaner
- Industrial Cleaning Accessories
- Specialist Nozzle Kits
- Surface Cleaning Equipment

"It's ideal for unblocking drains and has nearly the same capability as larger machines but is much more economical."

Metro Rod

Lightweight, compact, powerful, the low-cost jetting machine with the high specification

3000PSI @ 8GPM
