

Timboni – Kitchen Trolley

Report from school:

“The kitchen which serves the pupils with breakfast and lunch was well maintained and clean. The cooks ensured that the pupils eat on time so that they get back to learning. The kitchen trolley is yet to be mended, this is because the wheels had to be purchased from Mombasa and the technician responsible promised to fix the wheels by early next week.”

Note from UTMT|:

The kitchen trolley was funded by UTMT. As Trustees we are keen to encourage school to properly maintain all funded equipment.

Update 2 weeks later – the trolley is repaired and keeps the children out of the kitchen.
