49. A toy bean would be less dangerous on the end of a gun (7).....
50. The study of heredity (8).....

Under the Mango Tree (UTMT) supports a rural community school at Kambe Timboni, 30 miles North of Mombasa, Kenya. Children at the school are at risk from mosquito bites and subsequent malarial diseases. Bites can lead to chronic illnesses, lost months in school and, very sadly, sometimes in death.

A mosquito net can save families from these horrific consequences and, if purchased locally in Mombasa costs a little over £3 – not much more than a cup of coffee in a UK coffee shop.

Under The Mango Tree has been supplying nets for all pupils and staff for a number of years. They now need a re-supply to ensure that every child at Timboni school has an effective mosquito net. The target is to raise £1,200 specifically for this purpose in 2019-20.

Nets for Nets Campaign: When filled with 20p pieces or other small silver coins the content of each small gauze net will purchase up to three life-saving mosquito nets for the children and staff at the school.

Cheques should be made payable to:
Under the Mango Tree.
