COMMENTRY REPORT FOR THE MONTH OF OCTOBER

In the month of October madam Agnes and I did the normal monthly inspection on the items funded by the UTMT. We made sure all items are in order and in better condition as we were preparing for the national exams and the school calendar year coming to an end.

We made sure that the lockers, chairs, tables, desks are kept well so that it can be used once we open school in January.

The school cooks also made sure the kitchen was clean. The pupils also clean the school compound so as it can be of good use for the community and for the children who use it during the holidays to play football and other sporting activities.

As the 3rd term comes to an end, we would like to say thank you for you continues support throughout the year may God bless you and your families.
