

SPORTS PREMIUM IMPACT REPORT

2017/18

At Grovelands we welcome the government funding for Primary PE for the coming academic year. We are allowed to spend the money how we see fit but it is ring fenced and therefore must be spent on the provision of PE. We have received £20,600 for this academic year.

We have completed an audit which included analysing questionnaires sent to children and staff and having meetings to discuss how the premium would most benefit our children. As a result we have agreed to spend the money on the following:

Action:	Impact:	Allocation:
<p>The most important part we feel the money should be spent on is to make sure we have high quality PE being taught throughout the school. The money will be used to pay for a Primary PE Specialist, releasing them to support every teacher in the school to make sure high quality physical literacy is being taught across the year groups. The plan is for teachers to be observed, team teach with the specialist and to be supported on a 1:1 basis for the needs of each individual. This will improve the confidence and competency of all staff and ensure that high quality PE is being taught at Grovelands. Therefore when the funding is withdrawn the teachers at Grovelands have the expertise to ensure the high standard of provision is maintained.</p>	<p>Primary PE specialist ensures that PE is taught to a high standard throughout the school through modelling, shared teaching and observations. Teacher's confidence and competence in delivering PE lessons has improved and they are more aware of the steps which can be used to differentiate for children's needs in the planning and delivery of lessons.</p> <p>PE specialist has also introduced a number of new extra-curricular clubs which children enjoy attending. Through pupil voice, it was established which clubs children would most like to be offered in addition to those running already.</p>	<p>£12,000</p>
<p>Projected - Supply Days to attend sporting fixtures and courses: (over 15 competitions are attended throughout the school year). This will include:</p> <ul style="list-style-type: none"> ● Indoor Athletics ● Tag Rugby ● Cross Country ● Football ● Girls Football ● Netball ● Hockey ● Dodgeball ● District Sports <p>All pupils will regularly take part in Intra School Sports Competitions.</p>	<p>Supply days to cover sporting fixtures ensures that children in KS2 are participating in a wide range of team sports throughout the school year, developing their competitive skills.</p>	<p>£1,000</p>

Entries to competitions and ERPSSA (local district's sports association): Competitive sport is a priority for the school and is something we would like to develop even further. The cost also includes medals for running club and engraving on trophies.	Children enjoy competing and taking part in a range of clubs some of which lead to competitions within the district, others which focus on achieving their Personal Best.	£500
PE teacher and other staff to attend courses to enhance their knowledge and continue to improve the provision of outstanding PE at Grovelands.	PE lead has attended PE courses and PE network meetings to develop knowledge and understanding of how to further improve the provision of PE at Grovelands.	£1,500
Transportation to fixtures and district sports	Recent access to minibus has meant that children are able to attend a wider range of sports fixtures. KS2 children have also had the opportunity to attend a trampolining taster session at Cleves.	£1,500
Equipment to allow outstanding, high quality physical literacy to take place in all areas of PE. From the questionnaire, staff have submitted a wish list to continue to teach high quality PE. As this is our first year of being a complete through Primary (first year 6), we will be spending some money on school kits to attend competitive competitions. This is important so the children are proud to represent their school with their school logo on.	The addition of new resources ensures that teachers are able to teach high quality PE lessons in all areas of PE. The purchasing of kits ensures the children take pride in their school when competing in various sporting events.	£3,200
To further embed healthy competition as well as belonging, we will continue with the house system throughout the school. This currently includes: <ul style="list-style-type: none"> • Intra sport competitions to take place in houses termly. • Opportunity for pupil voice/responsibility - 10 children attending sports crew training morning at Cleves. • General belonging and competition through their school life. 	Introducing Intra sport competitions has raised the profile of PE within the school and ensures all children are able to take part in competitive sports. Attending Sports Crew training has developed the confidence of children running the Sports Crew lunch time club which targets inactive children in KS1 & 2.	£200
Total spent:		£19,900
Left to spend:		£160
