

CHECKLIST

ENTERING & PREPARING FOR THE TEST

- Make sure you get your entries in BEFORE the deadlines stated at the top of the schedules
 - Double check that you are riding the correct test for the test you have entered
- E-Rider & BD tests are different – Intro 1a (2020) is different to BD Intro A (2008) etc
- If you have rolled an entry from last month – you must ride a test from the CURRENT month schedule, not the original test you entered.
- Check our rules/restrictions to ensure you are entering the correct sections

FILMING YOUR TEST

- Is your arena 20m x 40m?
 - Do you have markers in the correct places?
 - Have you checked your tack is all BD legal? – Correct bit, not bit guards, no FLUFFY attachments, no martingales etc etc
 - Is your filmer standing at C and holding the phone landscape?
- You **MUST** have ticked all of these off your checklist otherwise your test will be HC (non competitive) and we do not want that!

OTHER FREQUENT MISTAKES

Are you wearing your gloves?

Verbally introduce your video including rider name, horse name, test and month AT THE TIME OF RECORDING – it MUST NOT be added afterwards

Please please please – watch back your video whilst reading the test BEFORE submitting!
Check you have no missing moves as that will be costly to your score! This includes your salute!
Make sure that you are clearly visible at all times – if the judge can't see you/your horse, they cannot award the marks you may deserve!
