

Village Defibrillator Awareness Session: Wysall Village Hall Wednesday 4th May 7.00 pm

Would you know how/be willing to carry out CPR on a person who wasn't breathing and had no pulse? If so, you may be in the minority.

Willoughby, Widmerpool and Wysall all have their own community defibrillators, which have been deployed on a number of occasions.

In order to ensure as many people as possible have the knowledge and confidence to use one if necessary, there will be an awareness session in Wysall Village hall on 4th May. The session is open to anyone from the 3 Ws villages, will last up to 2 hours and is free.

If you would like to come along, please send us an email to let me know so that we have some idea of the number of people likely to attend.
