

CQC 'Give Feedback on our Care'

CQC are the independent regulator of Health and Social Care in England. They are our regulatory body and we are inspected by them regularly.

Giving feedback to back to CQC helps to ensure they have an understanding of the quality of care provided by our organisation.

We would really appreciate it if you could give feedback via the link below on the care you have received from us. You can use this form to tell CQC about:

- An experience of care – it can be good or bad
- A concern about the service you work for (employees)

(Do not use the link below to make a formal complaint. To make a formal complaint, you must contact Great Oaks Hospice in the first instance)
