

CORONAVIRUS (COVID-19) GUIDANCE

Visiting Great Oaks

As an organization, Great Oaks is committed to ensuring the safety of our patients, staff, volunteers and visitors.

We are following advice outlined by the Government, which is reviewed regularly.

Following this advice, and to minimize the risk of infection, we ask that if you have recently travelled that you seek guidance from either Great Oaks or the Government website (www.gov.uk/coronavirus) before accessing our services.

Our patients are vulnerable and susceptible to infection. We thank you for your understanding during this time.

Should you be concerned about potential exposure, you should phone NHS 111 for further advice
