

baby lock

embellisher

The swift tool for creative minds

To embellish means to decorate or to beautify. The baby lock embellisher is thus a big temptation for the artists amongst us who love to express their creativity. Apart from its versatility, the machine impresses the users with its speed and comfort.

Felting by hand takes a lot of time and patience, along with great powers of concentration to use the needle safely. The embellisher's twelve fixed needles are contained within a protective guard to minimise the risk of injuries. The needles are barbed so that different fabrics can be firmly connected without using any

thread. Fairy wool or merino wool are the typical materials used for felting. Pieces of organza can be included to create amazing effects. But, of course, you can also use the embellisher for almost any other type of fabric, from denim and linen through to silk. Unlike wet felting, dry felting allows you to include small highlights here and there. The embellisher helps you conjure up patterns and images that are rich in detail. The materials are uniformly and densely felted with minimum effort.

Technical Data

Type of machine	Felting machine
Number of needles	12
Change of needles	individually
Number of threads	none
Stitches per minute	800

Accompanying yarns or decorative ribbon yarns are a unique addition to inspire your creative freedom. The yarn is inserted down the centre of the needles and can be fixed on the basic material to your liking, just like quilting.

Let your imagination run free with the baby lock embellisher! There is nothing that could get in the way of even your most exceptional projects. Your individual felt applications and fancy decorations will make you and your little pieces of art the centre of attention.

4 years warranty

2 years statutory warranty plus
2 years baby lock extended warranty
