Comfortable overlocking with ease

For decades, baby lock products have been appreciated above all for their robustness and user-friendliness. With a variety of possibilities, the technical features already give pleasure to beginners and experienced users alike from the very first use, because with easy to use automatic tensions – the sewing results will inspire you – regardless of fabric and thread.

The Victory gives you a simple, uncomplicated and comfortable operation and thus creates great overlock results. The Jet-Air™ Threading System developed by baby lock helps you to thread the loopers. Simply insert the looper thread into the appropriate port and press the lever.

The whoosh of air takes the threads straight into the corresponding loopers.

The Victory also saves a lot of time by eliminating the need to adjust tensions. The thread feed system (ATD) only releases as much thread length as you need for a certain stitch type. The result is precise seams at all times, regardless of the yarn type and your fabric selection.

No matter whether you work with jersey or serge difficult fabrics, you can look forward to a consistent and professional seam pattern.

Selection of different serging and decorative stitches – such as the creative 2-thread flatlock seam and the unusual **satin stitch**

Jet-Air™ Threading System
Quick and easy threading of the loopers – press the lever and the air transports the threads into the loopers

Developed by baby lock in 1993

easy threading of the needles

Stitch width	2 to 9 mm
Differential feed	0,6 to 2:1
Needle threader	Available

extra high foot stroke of 6 mm for more comfort during fabric processing

optimal illumination of the working area by LEDs

Heidi tells us about the *Victory* :

„As an overlock newcomer, I had total respect for her. However, my fear was absolutely unfounded. I didn't think I'd get such great results so fast.“
