

Day 6 Of Creation

In the book of **Genesis**, we read how God made everything in **six actual days**.

On the sixth day, God made **Adam and Eve**, the first people.

On that same day God made the **land animals**. That includes **monkeys** and **dinosaurs!**

"In the beginning God created the heaven and the earth." Genesis 1:1 KJV

But... Why do we not read about **Dinosaurs in the Bible?**

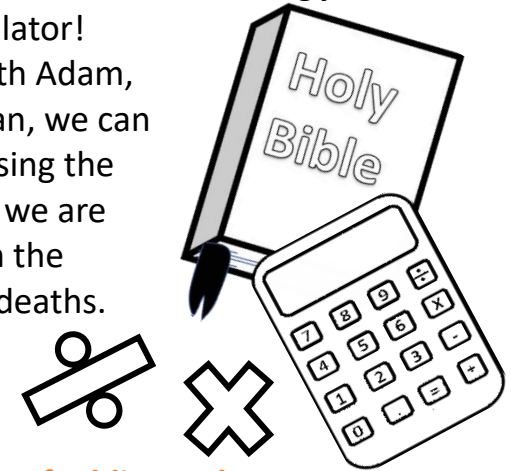

The Authorised Version of the Bible was written in **1611**. The word "dinosaur" was not invented until **1841**. That is **230 years later!**

The Bible uses **other** words for dinosaurs. We read a lot about **dragons**, and Job talks about a **HUGE** creature he called the **Behemoth**. Read Job 40:15-24.

Yes... $+$ $=$

God created everything about **6000 years** ago. We can work this out using just a Bible and a calculator!

Starting with Adam, the first man, we can calculate using the family tree we are given, from the births and deaths.

That is a lot of adding up!

We can always trust the Bible!

A man called **Charles Darwin** wrote a book in **1859** about an idea he had that is called evolution, he thought the earth was **millions of years old**. This was just an idea, he did not have evidence, and so even to this day, it is just an idea. Scientists call an idea like this a **theory**. He knew that if no one could find fossils that show one animal slowly changing into another (transitional fossils) his idea was not true. **That was over 150 years ago, today there are ZERO genuine transitional fossils.**

Evolution is not true.

Remember...

- God created **ALL** things (Genesis 1)
 - Sin ruined God's creation (Genesis 3)
 - We are **ALL** born in sin (Romans 5:12)
 - Sin separates us from God
 - Jesus has paid the price for **ALL** sin
 - God wants us to be saved from sin
 - We either **accept** this gift of Salvation **or we reject** God's loving mercy
- Read John chapter 3 v 16

"Remember now thy Creator in the days of thy youth..."

Ecclesiastes 12 verse 1 KJV
