Improving and wanting to improve further

Essential Ingredients

- Captivating floorless floorplans
- Memorable mesmerising music
- Eye catching dress
- Flags
- Fun and engaging component

BUT most crucially – the people:

- Capable, committed, selfless riders with suitable horses, who attend training again and again and..... uniting around their shared love of quadrille
- Knowledgeable, experienced and motivating leaders for team cohesion and continuous development

“Starting a new Quadrille display floor plan is like working your way through a maze – errr no, harder!”

But the end result is:

- A seamless display that the audiences enjoys
- Horses and riders having fun and a huge sense of collective shared achievement
- Joyous and perfect 10m circles!
- Riders who can ride accurately and ‘dress’ laterally and longitudinally
- Horses that can work together by shortening and lengthening their strides in all gaits

2023 - Plans

- More difficult
- More canter
- More intricate
- More displays

More.....!
